

For Immediate Release

October 12, 2021

Introducing MADRIX Online Training

The new MADRIX Online Training is based on the popular MADRIX Training attendance courses and now make these valuable lessons accessible around the world by bringing them directly to you.

Extensive user manuals, online tutorials, and more and more video tutorials are already available online for self-study at help.madrix.com

Now, three new in-depth courses cover the MADRIX 5 Software and its powerful features for creative pixel mapping in guided online lessons.

The courses are available in English and German and the first time slots are scheduled for November 2021. As a bonus, you will receive a 'MADRIX 5 KEY start' software product for free when booking all three courses.

We are looking forward to seeing all participants online.

About MADRIX®

Benefit from years of experience and industry knowledge. inoage® develops lighting software since 2005. Our dedicated team created the award-winning controller MADRIX® 5. We are located in the beautiful city of Dresden. MADRIX® is all about powerful yet simple products for creative LED lighting. This includes compelling tools for lighting management, monitoring, and control. We are proud to put our newest innovation into your hands. MADRIX® products are proudly designed, engineered, and made in Germany. We are creating high-quality products for you that are easy to use and reliable. Innovative features will bring you the best results. And opting for such highly manageable products means that you can drastically reduce on-site support; and thus your time and costs.
